Speaker: Matthew M. Crawford, Ph.D.
Kentucky Geological Survey
University of Kentucky

Topic: "Landslides in Kentucky: Tools and Methods to Further Hazard Assessment"

Speaker Bio:

Dr. Matthew (Matt) Crawford is an engineering geologist with experience in landslide hazards, geologic mapping, LiDAR data, seismic hazards, geophysics, and Geographic Information Systems (GIS). His research focuses on landslide characterization and conditions that lead to slope failure. He is interested in modeling landslide susceptibility and the connection between landslide mechanics and broader geomorphic evolution of the landscape. He also documents new, existing, and historic landslides that comprise a statewide landslide inventory. Matt enjoys research in earth sciences and the dissemination of data and expertise to those interested. Matt has a B.A. from Hanover College, an M.S. from Eastern Kentucky University, and a Ph.D. from the University of Kentucky.
